

Kimihia Primary School

Volume 2

February 1967 to December 1997

In January 1967 the school opened its doors for the first time after moving from Tawa Road to the newly constructed school in Tamihana Avenue, closer to Huntly.

1st February 1967

- The teachers assembled today to begin the monumental task of unpacking equipment and preparing for the arrival of 180 children tomorrow.
- The opening day staff was -
 - John Lloyd - Headmaster
 - Miss Elsie Hatton - Supervisor Junior Classes -
 - Miss Marion Bogie - Assistant Teacher
 - Miss Lyn Challinor - Assistant Teacher
 - Mr Pat Dunn - Assistant Teacher
 - Miss Vivienne Bassick - Probationary Teacher

2nd February

- To the obligato of Cyclone Dinah which yielded 5.6 inches of rain in 24 hours we moved into our rooms and made provision for 180 eager youngsters. There should have been chaos. But there wasn't, and by 9:05 all children were in their rooms and teaching had begun. This was a credit to both staff and children. The tone seems excellent. Our main worry now is the unfinished nature of the buildings.
- Mr C Wisely and Mr Symmonds, Dominion Executive members of the NZEI visited the school.
- A general meeting of parents was called and attended by over 80 parents. The tone of the meeting was excellent and augers well for the future.

March

- A general Meeting was held and the following committee elected: Mrs R Gill (President), Mrs Fletcher (Secretary), School Representative.
- Mrs L Foster appointed Clerical Assistant.
- After a year of fund-raising to get money for a swimming pool the Treasury cancelled its 650 pound subsidy. Had the school applied a week sooner all would have been well. (This decision was later

amended and the subsidy provided).

April

- The new School Committee was elected. Mr Ron Holland (Chairman), Mrs Ivory (Secretary), G White, B Grut, M Gerrard, T Hunt, E Jones.

May

- Mrs Thomson took over Mrs Challinor's class in a relieving capacity.
- A group of Hamilton carpenters began to remove the roof from the old school building.
- House names were decided: Kowhai, Matai, Totara and Rimu. Shrubs and trees appropriate to the House names were to be purchased.

June

- Mr Malcolm inspected Miss Hatton (SJC) and Mr P Dunn (assistant master).

August

- An exciting collection of trees and shrubs arrived for planting by the children, which made a great difference to the appearance of the grounds. The cost to the South Auckland Education Board was about £130.
- Some of the mothers of the school worked to paste 1200 Ginn worksheets onto card.
- Two bus-loads of children went to the Auckland Museum, the Zoo and the Institute of Technology. The buses cost £68.
- Following months of discussion and consultation the following non-compulsory school uniform was decided upon:
Boys: Grey shorts, grey shirts or cotton-knit T shirts, grey socks with a blue band, grey

jerseys with blue neck band. For sports white shorts, white sleeveless singlet or T shirt.

Girls (winter): Navy gym, navy belt, white blouse, royal blue cardigan. (Summer): Simple dress to own pattern using a blue and white small check material. Own choice of stockings. (Sports): White blouse, black rompers, blue sash when necessary.

- On the 12th the school was officially opened on a day that started out with high winds and torrential rain. Miraculously the weather cleared itself in time for the programme to be worked through. The children's behaviour was first-class.

 Inspection of school

September

- Mrs Foster, Clerical Assistant, resigned as she was leaving the district and Mrs M Gerrand took her place.
- The baths were begun on the 26th by the builder, Mr Rothwell.

October

- Black Monday! The school had some large Power Board reels donated for playground equipment. Mark Tilson fell off one and broke his arm as well as the leg of Kenna Robinson, on whom he fell.

November

- The Standard 3 and 4 children from Mr Dunn's room

made a three-day visit to Maihihi on an educational tour. Thanks to careful planning and parent co-operation this was a great success.

- The baths are now full, although some minor finishing remains to be done before use. On the 17th the children had an unofficial opening of the baths. Karen Hartis, who was the most recent entrant, made the first plunge.

December

- On the 11th the school concert and breakup ceremony were held. Awards were made to the best performed children in each class.
 Dux - Patricia Fransham;
 Runner-up - Ross Carroll.
 This was a splendid evening with 200 adults and 200 children in attendance. All were accommodated in the double-room. The air supply was taxed!

It was a rarity for a new school in New Zealand to open with a ready-built pool available for use by the pupils.

Through fund-raising by parents and pupils of the 'old' school and a grant from the Government, this was made a reality.

During the 1950s consideration had been given to constructing a pool at the old site

when the Kimihia Lake became a swimming impossibility and swimming lessons there had to be curtailed.

The mining contractors (Downer & Co.) were prepared to make their heavy earthmoving machinery available for such a purpose at that time.

(Photograph taken July 1967 prior to it being moved to Melville Primary School for use as a Library).
At the Melville Primary School, over a period of time, the building was re-blocked, re-clad and re-roofed to a point where all that remained of the original structure were the internal timbers and so the building was no longer recognisable as the historic structure it once was. A new building has now replaced the original.

The Minister of Education Mr Kinsella addresses the gathering

Kimihia School Opens

“A new school at Kimihia, Huntly was officially opened by the Minister of Education Mr Kinsella, at 1.30 this afternoon.

“The school has six classrooms, administration blocks and dental clinic.

“The headmaster of the new school which has been in use since the beginning of the year, Mr J. Lloyd, said the school had a roll of about 200 pupils.”

A ‘New Look’ School

Huntly -

Building a new school in brick was quite a departure for his department, said the Minister of education, Mr Kinsella, officially opening the new Kimihia Primary School on Saturday.

The new school is built of bricks obtained from Huntly.

“This is because the role here should stay at 200, or perhaps rise in the future, and because brick is quite a cheap material in Huntly,” he continued. “The trend today for an entirely new type of school with a permanent block for the role it is thought the school will eventually have, and transportable classrooms to cope with the role when the area is developing.”

“These are manufactured off the site and can be picked up and placed at another school when more accommodation is needed there. At Turangi, the whole school has been put together in this way,” said the Minister.

‘NODULES’

“In Hawkes Bay, schools are made from ‘nODULES’ which are fitted together . . .” he continued.

Mr Kinsella mentioned that the one-roomed school-house cost \$400 in 1897, and this one was \$100,000. The old school was later transferred to the Crown at a cost of \$30 for the legal fees.

“We first approached the Minister for a new school in 1964,” said Mr R Holland, chairman of the school committee.

SWIMMING POOL

“The new swimming baths will be started in a short time, and this must be one of the few schools to have enough money for this purpose before it is officially opened,” he continued.

Built in a rectangle around a play and assembly area, the school comprises six classrooms, administration block and dental clinic. It has an informal play area down the hill on one side of the school. It serves a developing area.

Infant and senior pupils presented folk-dances and a gymnastic group from Huntly West School gave a fine display. Sheryll Drew, the Head Prefect, presented flowers.

Mr Kinsella Speaks At School Opening

HPR -

“This is a new departure in school building,” said the Minister of Education, Mr Kinsella, opening the new Kimihia School in Russell Road on Saturday.

Mr Kinsella said the Kimihia School was one of the first to be built in permanent materials.

As the school population in the area was expected to remain stable at its present figure for many years, the Kimihia school had been built of Huntly brick and the buildings were permanent. Departmental policy now was to erect school buildings in the builder’s yard and transport them to the school sites.

This meant that, if the school population fell, unused classrooms could be taken to an area where the population was expanding; thus saving the taxpayers’ money. This system had been used when building a school at Turangi.

Mr Kinsella instanced some parts of Auckland where schools had been built some years ago to cater for a peak school population, which had since levelled, leaving several empty classrooms. Luckily these could be put to use.

The first school at Kimihia had cost approximately \$400 in 1897; today the cost of the new school was more than \$100,000.

The first teacher, Mr Maurice Priestley, had later become a school inspector and left his mark on that profession - as no doubt he had on his pupils.

Mr Kinsella urged the present pupils to look after their school. It was their school and the good name of their school would be up to the people in it.

Parents and committee had done a heartening amount of work toward getting swimming baths and beautifying the grounds, and the school could well become first class.

Mr Kinsella then turned the key to officially open the school.

He then granted all the teachers a holiday on Monday - of course the children would not come without the teachers!

Official Opening of Kimihia School

Huntly Press-

The head teacher, Mr Lloyd, welcomed distinguished guests, parents, children and friends to the official opening of the new Kimihia School on Saturday.

Rain threatened, but luckily did not fall to spoil the function.

Official guests included the Minister of education, Mr Kinsella, and Mrs Kinsella; Mr D J Carter, MP for Raglan, and Mrs Carter; Mr J Allen, Principal of Hamilton Teachers' College, and Mrs Allen; Mr J Thomas, chairman of the South Auckland Education Board; the Mayor of Huntly, Dr E E Willoughby; the chairman of the School Committee, Mr Richard Holland, and Mrs Holland; and Mr Holland Sen., chairman of the old School Committee.

Bouquets, arranged by Mrs Gill, were presented to the ladies of the official party by the head prefect of the school, Sherryl Drew.

Mr R Holland welcomed all and expressed his committee's pleasure at the fine new building.

They had written to the South Auckland Education Board four or five years ago. Board members had come out and the present site had been picked. The beautiful new school had been worth waiting for.

Mr Holland thanked his committee and parents. Kimihia school opened with money for swimming baths already raised. They had not been built as the committee thought it was better to wait till the danger of frosts cracking the new concrete had passed.

Mr Holland Sen. said the old committee had applied for a new school a long time ago -the application had always been "put on the file."

Mr Holland recalled going to school many years ago along a tea-tree track.

There was no control heating - only an old stove, which "the teacher stood in front of with an old shillelagh in her hand" - the children didn't stay long after they reached 14.

He did not think any child would want to leave the new school and hoped they'd look after it.

Kimihia School was really "in the city" now. There were no houses - only a few small shacks - when he was going to school.

BEAUTIFUL LAKE

"We used to have a beautiful lake down there for swimming," said Mr Holland Sen.

"Progress cannot be halted and we are left with an ugly scar down there. I hope they can do something about it."

The Mayor, Dr Willoughby, welcomed all visitors on behalf of the citizens of Huntly and sympathised with the children for having to come to school on Saturday.

Mr Thomas, chairman of the South Auckland Education Board, expressed his pleasure at being present at the opening of the new building.

He had been "one of the gentlemen whose elbow Mr Holland had jogged." He had been horrified when he saw the old building and had agreed a new school was needed.

It was the first one built in permanent material - Mr Kinsella didn't give them enough money and built in the local Huntly brick.

The Minister of Education Mr Kinsella symbolically "opening" the new school.

Mr Thomas expressed his appreciation of the work the headmaster and school committee had done to get the school functioning, and wished them every success.

Mr J Allen, principal of the Hamilton Teachers' College, told the pupils why he had to go to school.

Items Given at School Opening

Huntly Press-

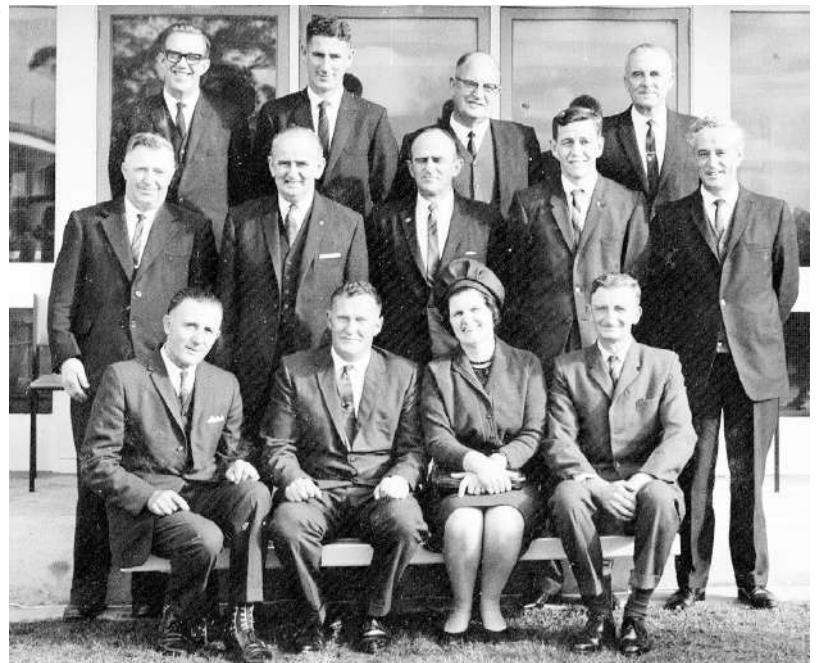

Schoolchildren provided items of interest to all at the opening of the new Kimihia School.

The School Recorder Group began the proceedings with the National Anthem.

Infants' classes gave a charming folk dance - "in and out the windows." One or two appeared to go in the wrong "window," which, for a sympathetic audience, only added to the fun.

A clever folk dancing display; a Scottish country dance was given by children from the senior school.

Huntly West School gymnastic group - Waikato and Auckland school champions - gave a clever display in spite of the lack of space. Two songs by Messrs Yates and Reece Jones was enjoyed by all.

February

- The year began in bright sunshine as opposed to last year. Teachers assembled on the 5th to prepare for the year.
Headmaster - J B Lloyd
- SJC - Miss E Hatton
- Assistants - Mrs D Thompson, Mrs M Bogie, Mr P Dunn
- PA - Mrs H Wilmott
(Ex United Kingdom)
- School commenced on the 6th with a roll of 190.
- Mrs Wilmott lasted a week and a half before it was known that she was not suited to the work, and she resigned from teaching.

March

- Miss Frances Courtney began work in the place of Mrs Courtney.
- A visit to Huntly by the Governor General Sir Arthur Porritt. The children assembled in the Memorial Hall. He responded by giving the traditional holiday.

May

- Miss Hatton, the school's first SJC (Supervisor of Junior Classes), was farewelled. She had made quite an impact on the school and the children. Her position was taken by Mrs Stanworth from the Huntly Primary School.

July

- Don Clarke, All Black rugby player, spent the afternoon coaching and in giving a most worthwhile account of his travels.
- Mrs Peterson began in a relieving capacity in the place of Mrs Stanworth, who is in hospital.

August

- Children from Maihihi school were to have paid a return visit but an epidemic of measles in their district put paid to the trip.
- The school continued with an itinerary of visits to Weavers Open Cast Coal Mine, to the Huntly Brick Works and to the Meremere coal-fired power station
- Mr Nash resigned from the cleaners position. A large number of applicants for the vacancy saw Mr Alan Hedley appointed.
- Mr Wilson, newly appointed school inspector to the district, made an unscheduled visit.

October

- The Flower Show was duly staged and was great success. The idea of getting the children to arrange their exhibits at school was a good one as it meant they did all the work themselves and the competition becomes fairer.

November

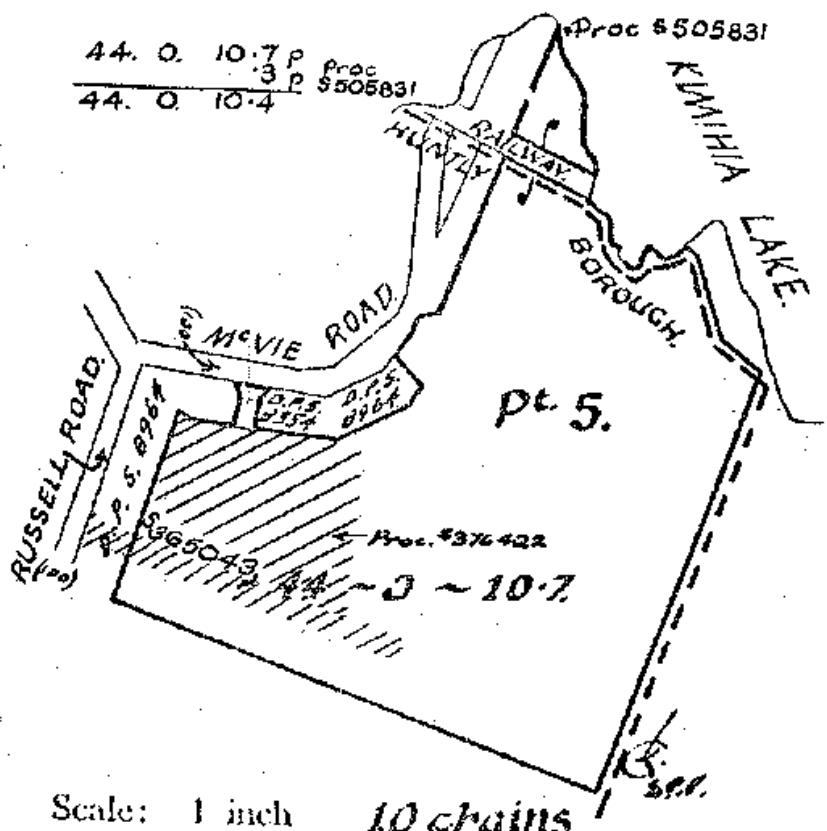

- A series of four evenings to aid parent's understanding of the new maths was begun. Mrs Bogie began with an explanation of "Sets". An excellent attendance of more than 30 parents took part enthusiastically.

December

- The infants had their day when they hosted parents at a 11am activity programme. The parents, mainly mothers, then took the children to the Huntly West playground and had lunch and games with them. They returned to the school where swimming lessons were taken.
- The annual concert and break-up party was held at the Huntly Primary School assembly hall. The hall, which seats 500, was overflowing and the concert had its usual charm, mainly centred on things which did not go according to plan.
- The wind-up speakers were Mr Holland (committee), Mr Gill (PTA), Donald Bogie (children) and the Head Teacher.
- Final Awards
Jeffrey Hiriaki (Sports Award)
Louis Slee (Most consistent worker in Form 2). Donald Bogie (Dux).

Hepatitis Outbreak at Kimihia School

The Kimihia School, near Huntly, may be forced to close due to a bad outbreak of infectious hepatitis.

A large number of the school's roll of 204 has already been affected, together with a number of adults from the area.

Local residents claim the cause of the disease at Kimihia is a number of defective sewers serving several new homes near the school.

Huntly has its own sewerage scheme, but this area of Kimihia has not yet been connected.

The headmaster of Kimihia School, Mr J Lloyd, said today that reliable figures of the number of pupils affected could not be accurately assessed, but they were considerable.

Mr Lloyd said a health inspector was due to make an inspection of the area tomorrow, and he would ask the inspector if the school should be closed as a safeguard.

The outbreak at Kimihia is only one in the Waikato-King Country and he is concerned at the spread of

the disease among school children there.

With support from the Taupo County Council, they intend pushing for hot-water hand-washing facilities in schools. And the South Auckland branch of the Parent Teacher Association recently formulated a remit on the subject to be presented at its national conference in Wellington in August.

The federation would take up the matter of hepatitis with the Government departments concerned, said a spokesman, Mr W A Rush.

But the general manager of the South Auckland Education Board, Mr K C M Cockerill, said in answer that the incidence of hepatitis in some schools could not be blamed on the lack of hot-water hand-washing facilities. He said the matter of hepatitis had been fully discussed with Dr Dawson, Hamilton District Medical Officer of Health.

The disease could be traced to any number of causes, said Mr Cockerill, but a circular had been sent to all teachers asking them to pay strict attention to children's hand-washing.

Soap was supplied in all schools, and most had towels supplied either by individual children, or paper towels supplied by school committees.

February

- The school opened with a full staff, the same as for 1968, with the exception that Miss Sheryl Reid replaced Miss Courtney who moved to Putaruru.
- The initial roll was 199.
- Mr L Palmer, Inspector for the area, visited.
- In glorious sunshine (unusual for a Kimihia function) the annual swimming sports was run in the Domain baths. The improved standards of performance shown proved the value of having our own pool. Matai won the swimming competition.

April

- An interesting display and films from the BP oil company.
- A biennial householders' meeting was held to elect a new school committee. Chairman M Gerrard, Secretary-Treasurer E Jones, Committee Mrs A Fletcher, Messrs T Hunt, R Gill, I Tapp and B Fransham.
- The Annual General Meeting of the PTA elected the following executive officers: R Forrest (Chairman) and Mrs R Gill (Secretary-Treasurer).

May

- The children ran their 'Penny Arcade' and cleared \$27 in the hour.
- The second term started with a full staff but a dramatically decimated roll of pupils, due to a virulent outbreak of Hepatitis in the district. As this has been raging for some months now one wonders why the Health Department hasn't taken some measure to isolate the source.

Nine Pupils Sick

Nine cases of infectious hepatitis had been officially notified by pupils attending Kimihia School, said the Hamilton medical officer of

health, Dr J F Dawson, today.

But there were probably many more as some times the disease was not reported or medical assistance sought, he said.

A very favourable report was given by the health inspector who visited the school yesterday, said Dr Dawson. Hand-washing sanitation facilities were quite satisfactory. The school had been built recently.

"Pockets of hepatitis are springing up all the time, and we can only stress again the importance of proper hand-washing and personal hygiene."

He said the cause of the disease at Kimihia was not known.

The Kimihia School's headmaster, Mr J Lloyd, consulted the South Auckland Education Board yesterday, as he feared the school might have to be closed to safeguard other pupils so far not affected. But he had no further comment to make on the situation today.

Diseases spread in schools

Huntly - Conditions existing in schools enabled diseases to spread rapidly and easily due to close confinement of pupils, the Huntly Borough Council was told last night.

In his report, the health inspector, Mr C M Turner, said no facilities for washing pupils' hands with hot water was another factor.

His report also said that 23 pupils from Kimihia School were still affected by hepatitis and were absent from classes.

Mr Turner said he had visited the school and interviewed the headmaster, Mr J Lloyd. The hepatitis outbreak there was only mild and not of epidemic proportions.

He said that during the past month infective hepatitis had been rife in the borough. Four cases had actually been reported.

"But it would appear that doctors in Huntly are not always notifying the Health Department of hepatitis, and consequently the extent of the outbreak cannot be ascertained."

June

• The hepatitis crisis is still raging in the district and the matter has been highlighted in the newspapers and over the radio. The Health Department paid us a visit and spoke very highly of the standard of cleanliness and general attention being paid to hygiene in the school. They are still not particularly interested in taking any positive action. In the meantime there is a steady stream of new cases.

July

• This year we varied the system of issuing reports

in that they were sent home with the children first. The parents were then invited to a PTA meeting where they had the chance to interview teachers and discuss the children's progress. This proved very successful with 70 parents attending.

• We are still having a steady stream of new cases of hepatitis. The Health Department has consoled us by predicting about 75% of the school eventually going down with the illness!

• A three-day inspection visit from Messrs Palmer, L Wilson and Holmes. The visit was to issue one yellow and two green reports on staff members. It involved a most thorough analysis of the school programme and its implementation.

August

• Forms 1 and 2 made an educational visit to Wellington per NZ Railways. The fare was \$9.50 a head and the children received a full day of VIP treatment.

September

• Mrs Allen agreed to assist in the Std 3/4 area as the Board could not even supply a relieving teacher.

October

• The annual flower show was held in spite of unfavourable weather. Each room arranged its own display.
• School inspection visit from L Palmer.

November

• J Lloyd attended a two-day course on mathematics.
• A Sunday working bee prepared a new fence and a concrete extension around the baths.
• Mr Ian Tapp and Tom Johnston completed the concrete around the baths two days later. The fence was completed and a 'Christmas neck-trim' was given to the school grounds.

December

• The school break-up was held in the Huntly Primary School assembly hall with a very large attendance of parents.
• The programme for the break-up was . . .

New Zealand Events in 1973

- Opposition to French nuclear testing intensifies.
- Oil prices increased from \$3 a barrel to \$20 a barrel making petrol prices in NZ higher.
- Introduction of the Domestic Purposes Benefit.
- Population reaches 3 million.
- Fearing the 'greatest eruption of violence this country has ever known', the Kirk-led Labour government cancelled the proposed 1973 Springbok tour.
- New Zealand batsman Glenn Turner became just the seventh cricketer to score a thousand runs in

first-class matches in England before the end of May.

- **Comedian John Clarke** introduced New Zealand to his alter-ego Fred Dagg – and a host of 'Trevs'.
- Colour TV arrived just in time for New Zealanders to enjoy the pomp and ceremony of Princess Anne's wedding to Captain Mark Phillips in November.
- Selwyn Toogood's popular long-running radio and stage show *It's in the bag* made its TV debut. The popularity of both Toogood and the format saw the show screen continuously until 1990.

February

- The year started with a roll of 175 and the following staff: Mr B Seaton (Principal), Mrs M Bogie (Deputy Principal), Mrs J Stanwick (STJC), Mr Gregory, Miss de Lacey (appointed to a permanent vacancy), Miss Chambers and Miss K Johnston (Year 1).
- The Principal attended a liaison committee with the Power Project. The housing development will have a great effect on the school roll.

- Mrs Clark of the Waikato Branch of the Royal Life Saving Society began tuition of selected swimmers.
- Carnival Swimming Sports held in the town pool.

March

- Traffic Officer Fischer called to train the 1974 Traffic Wardens.
- The committee cannot arrange for a pedestrian crossing due to the low traffic density.
- Interschool swimming sports held in the Huntly pool. The Kimihia swimmers gained several heat placings but were unsuccessful in the finals.
- Mr Mjirkeresk, chief architect for the South Auckland Education Board, called with plans for building additions to end up with a 10-room school.
- Sixteen swimmers were tested for Life Saving certificates - all passed.
- Discussion groups under the sponsorship of the PTA for the Education Development Conference saw only eight attending. Discussion centred on Māori and aural education.
- Tenders for school painting let.
- Pupils raised \$68 as a donation to the Aged Trust Appeal in Huntly.

April

- The PTA Annual General Meeting was abandoned due to lack of support caused through late notification (1 day).

June

- School Camp held at Port Waikato. All 69 of the Std 2 to Form 2 pupils went with three staff members, three parents and four cooks. The weather was perfect allowing the full programme to be completed. Mr B Seaton organised the camp as there was no Physical Educator available. The Camp cost \$8.70 a head and it transpired that approximately \$100 of refundable subs was donated back to the school by the parents.

July

- The PTA held its first ever social function - a wine and cheese evening. About 90 attended, including a few pre-school parents.
- School class visits on field trips - Bakery, Rakaumanga & the Chartwell Fire Station.
- 86% of parents attended the mid-year interviews. New report form voted in by parents.

August

- \$251 raised by PTA annual street stall.
- Annual Interschool Winter Sports Day with Kimihia fielding netball and rugby teams.

September

- Advice received that a school flat is to be built for Kimihia. A housing application committee has been set up to handle all applications for tenancy of all school flats in Huntly. This committee comprised the Principals of Huntly Primary, Huntly West, Kimihia and Rakaumanga. It was decided to allocate one flat to each school.

October

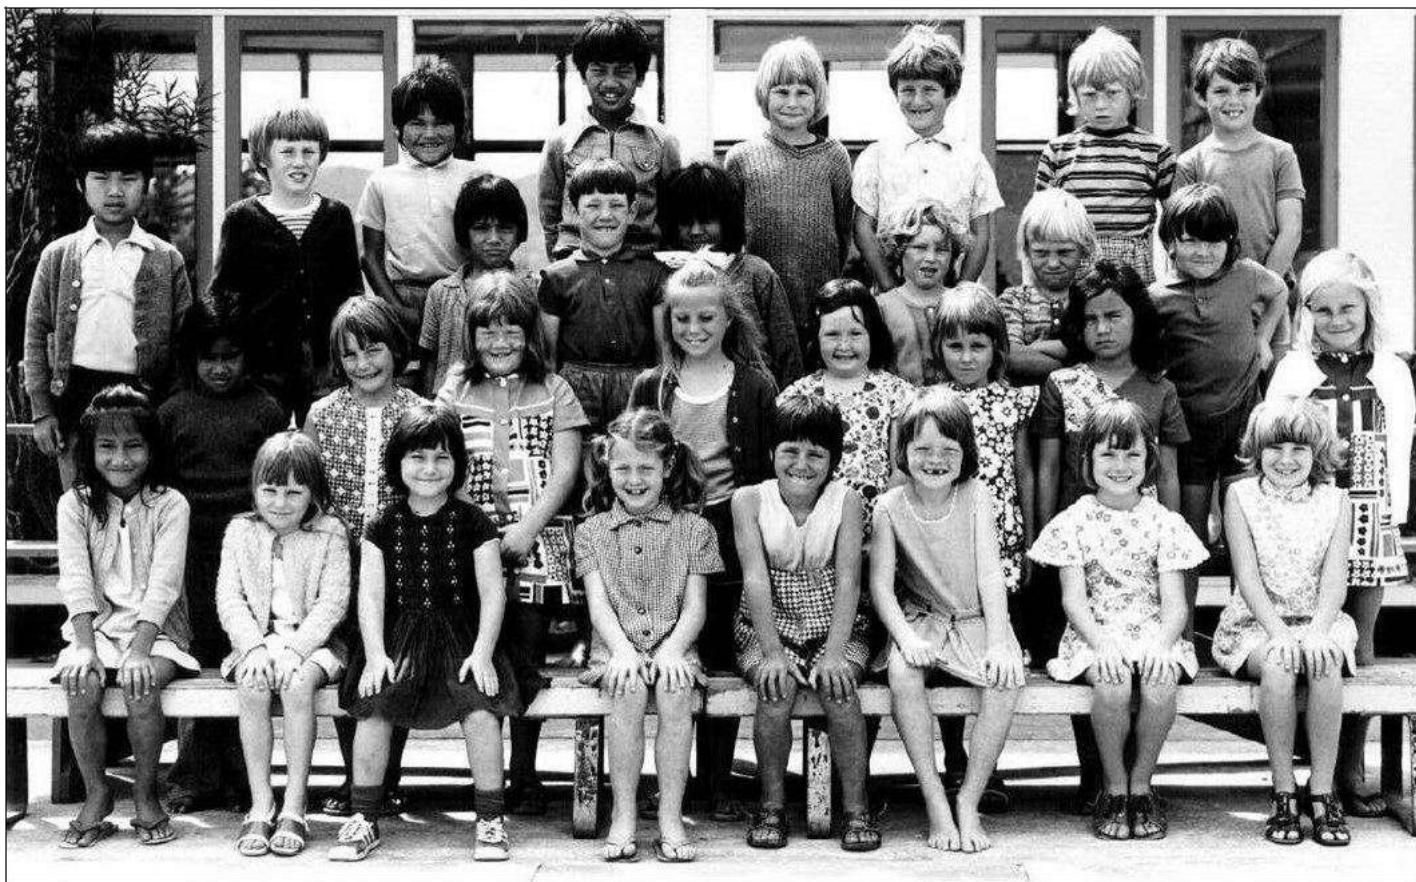

- Annual Music Festival. The school choir of 24 performed an individual item with credit.
- A Summit Meeting of Principals and Committee Chairmen was called to meet South Auckland education Board officers to discuss zoning of the new housing area. It was decided that all Rosser Block housing would attend Kimihia.

November

- PTA social and games evening attended by 56.
- Art & Craft evening convened by Kimihia attended by nine schools and their displays.

December

- An end of year function held on the 18th in the school grounds in fair weather. Afternoon programme of tabloids, races, swimming, etc. Items and official speeches by the Principal and Mr Gerrand in the evening. Only three families stayed to the picnic tea due to the weather turning cold in the late afternoon.
- Mr Riley of the SAEB came to site the prefabricated classrooms as a temporary solution before the permanent buildings are ready.
- The school closed on the 20th with a roll of 199. Twenty-eight form two pupils moved on to secondary school.
- The school has been upgraded to V.D. to start in 1975. Additional staff, ancillary staff, part time staff and buildings arranged for February '75. The future expansion is unknown but is expected to be sudden and large.

New Zealand Events in 1976

- The Matrimonial Property Act introduced the principle of equal sharing of the assets of a marriage in the event of its dissolution after three years or more. It did not apply to dissolved de facto relationships.
- The golden arches appeared for the first time in New Zealand at Cobham Court, Porirua. Kentucky Fried Chicken had begun the American fast food invasion of New Zealand five years earlier.
- The last sailing of the *Rangatira* brought to an end more than 80 years of regular passenger ferry services between Lyttelton and Wellington.
- The country's first centralised electronic database was established in Whanganui. While some questioned the state's right to collate information on its citizens, the Police Minister hailed it as a 'most significant crime-fighting weapon'.
- The 'Moyle affair' began when Prime Minister

Robert Muldoon – speaking under Parliamentary privilege – accused senior Labour member Colin Moyle of having been 'picked up' by the police for homosexual activity, which was then illegal.

- With the economy in recession and unemployment rising, the spotlight was turned on 'overstayers' – immigrants whose temporary visas had expired. Accused of overloading the welfare system, some were detained and deported. Dawn raids on the homes of alleged overstayers by police began in 1974 and intensified in October 1976.
- The anti-nuclear movement in New Zealand broadened into opposition to visits from American nuclear-powered and -armed vessels.
- The All Blacks toured South Africa in defiance of a United Nations call for a sporting embargo of the republic. In response, 26 African nations carried out their threat to boycott the games should New Zealand attend.

The Ballad of Kimihia by N B Seaton or “Academy Gallery” or “Us, As He Saw It”

He stood there - stared in disbelief - elated at his good fortune.
 The mail had come - had brought the news, but still some trepidation.
 Could he do it? Achieve success? Was he really fit?
 To take on Kimihia School..... and make a job of it?
 His worries were unfounded though, he didn't need to wince,
 That team of teachers had made it go ... and so have many since.
 Since February of '71 he's seen so many new But Marion and Judy
 have stuck it out right through. Side by side, supporting him,
 two senior places filled, They formed a teaching nucleus
 for years, on which to build. The first to leave - the Thomsons - southward went old Pete But Dot had heard the patter of tiny little feet. Pete became quite famous for a nightly escapade

 He drove into the local lake,
 (not the only mistake he made).
 Margaret McLeod, our 'year one'

had turned our Pete down flat.
 He really thought he 'had it made'
 but her wedding finished that!
 The roll began expanding,
 it reached two hundred and three
 And then we were upgraded
 from V.A. to a V.B.

The following year - in '72 to live in our memory,
 Came Pamela Kirkwood, Helen Fyers and the memorable Gregory.
 What a bright smile and a happy time young Pamela injected.
 The first school camp was held that year the school also inspected.
 That year, too, we began awards the Form Two Certificate.
 School house was shifted into town after a lengthy wait.
 In '73 we enlarged again and he became a walker,
 And Claire de Lacey hit the scene, and what a little corker!
 She glanced around and set her eyes most squarely on our Haig,
 And from that very moment on his future she had laid.
 Our first year girl - Eliza Watt was joined, just one term later By Mrs Dean, who joined the team:

our numbers getting greater.
 Our sporting teams had come alive,
 results were quite fantastic
 In athletics, rugby, netball and
 in swimming and gymnastics.

In '74, two faces more,
 to adorn the place, were sent us.
 Liz Chambers began a two-year stint
 (and the horses nearly bent us!).
 And Karen Johnston - remember her
 she sent eyebrows raising,
 But Haig and Claire, they didn't care
 they just went on gazing!
 We had a visit from the Board
 with plans to extend the school.
 An open-plan we had to have,
 John Dowling made the rule!
 Two rooms were promised, to fill the gap
 and we were all elated,
 But, what a mess when they turned up,
 they were only prefabricated!
 Never daunted, never done,
 we worked on their upgrading.
 But Haig and Claire, they didn't care,
 they still just kept on gazing!

In one of those rooms, Kirkpatrick went
 a new face on the horizon.
 Her neighbour, too, in '75, new,
 none other than Anna Dinnison.
 Sherryl was to become a permanent one

(acquiring a local interest!)
 But Anna moved on at the end of her time
 She couldn't decide who was best.

Carol McKeon was imported too,
 pretty, polite and all that,
 But just like the kids, when teacher calls, she
 was called to "Matt".
 A musical lad, we'd never had
 his name was Jeffrey Stewart.
 We couldn't contrive to understand jive -
 we were square! (And we made sure he
 knew it.)
 Ann Harris, too, joined our crew later
 in that year,
 She was to become, in years to come,
 the school's number one reliever.
 That great big room was ready then
 it required careful selection,
 But Marion, Sherryl and Anna began
 and made a great job - on reflection. The
 end of that year dealt a sad blow
 nearly a full exodus,
 As seven of the staff, to various ends,
 decided to take leave of us.
 It wasn't so bad, 'cause two didn't go
 and the 'Gregory Deal' was now clinched!
 A bit of a mix, but we straightened it out.

In '76, this place, it had grown
 and even still more were expected. Six
 new ones arrived to join the team,
 not one single one was rejected. Neil

Couch arrived from places north
 to teach in close collusion
 With Ken Garland - from close at hand a
 master of confusion.
 Though here to stay for many a day,
 teaching mysteries to unravel,
 Ken and Francene soon gained a taste
 for a bit of overseas travel.
 Then Kerry Cameron - an asset to have
 joined us for just a short bit,
 And who could forget that gay little sprite
 called Bronwen, the neat little chick.
 Elizabeth Harper from Wellington came,
 always as bright as a button,
 And out little crew was joined by a new
 and still with us - one Helen Sutton.
 A very strong team, that Kimihia staff,
 all knew each small teaching knack,
 And to and behold, it weren't very long
 before we got our Sherryl back!
 In Feb '77, we saw Vicki Stone
 demonstrate her devotion
 To our school and our kids, and later to Malc'
 who sailed her across the ocean.
 We're still not sure whether Moira knew,
 when she planned her life
 And came to Kimihia to teach
 that she'd become a wife!
 She's not the only one, you know,

to take that final fling,
 For Jane arrived with the Thompson 'brand'
 but now she's changed to Ng!
 We mustn't forget our Collins or Caine,
 that Des was a bit of a rover.
 Edith's been here for the rest of the year,
 'twas him from whom she took over.
 This teaching list would not be complete
 without all our helping peers,
 It must include our Vat Gerrand
 she stayed with us nine years!
 And Lenore Goss and Avis Hart
 and lately Marion Stewart,
 And Doreen Adamson, Jill and Trish
 all priceless - and he knew it!
 Relievers too, and quite a few
 have taught within these walls.
 Just grab the phone and - if they're home
 they'll respond to emergence calls.

The members of the P.T.A.s
 and School Committees too,
 A number far too great to list
 nearly fifty-two.
 We couldn't go on without their help,
 keep it going please:
 The social functions, parents' nights
 and all the working bees,

Through the years the faces changed, they came
 and went, and yet
 They built a power of happy times -
 ones he'll never forget.
 Not many have had this honour over years,
 to lead a band
 Of dedicated teachers
 'mongst the finest in the land.

So Marion, Judy, Sherryl and Neil,
 Helen, Jane and Edith,
 Moira, Marion, Avis and Trish,
 his ballad here must endeth.
 They say that pleasure derived from work
 comes only how you earn it,
 But the team's the thing! The only thing!
 And they've all helped him prove it!

Kimihia Gymnastics

The Waikato Primary Schools Gymnastics Association held its zone and area championships in the Y.M.C.A. gymnasium in Hamilton recently.

On October 27 the central zone championships were run in four divisions.

Kimihia School entered four teams and achieved some successes.

A Grade girls: Kimihia team gained second place (Lynley Holland, Karen Hartis, Cheryl Harper, Jan Tapp). Jan Tapp was judged second in the individual championship. B Grade girls: (Jillian Seaton, Carolyn Stirling, Diane Wallace, Suzanne Dunston), performed well to gain 11th place.

B Grade boys: (Philip Gill, Chris Kendrick, Kevin Stirling, Robert Manaia) awarded 14th place.

C Grade boys: (Bruce Horrox, Roger Tapp, Shawn Rutene, Wallace Rutene), gained 3rd place against some more senior teams, with Roger Tapp gaining 1st place in individual championship.

This put Kimihia A Grade girls and C Grade boys into the final of the area championships, held at the same venue on Saturday, October 27.

In spite of performing against a majority of intermediate schools, Kimihia A Grade girls gained 2nd place, which speaks very highly of their performance.

Jan Tapp gained the distinction of being awarded the winners certificate in the individual championship for the whole of the area.

This was a most successful season for Kimihia School teams. A total of 15 certificates were awarded to Kimihia pupils.

These two views are of what used to be “The Point” on the edge of Lake Kimihia (looking westward).

This was a small promontory that poked out into Lake Kimihia and was used extensively as a swimming area. The grassed area in front used to be the lake until the removal of the overburden from the opencast mine eventually filled it. The low shrub shown on the raised area in both photographs (arrowed) is thought to be an original bush growing there in the late 1800s. From this location swimmers went out to the island as well as using some semi-submerged tree trunks to dive off. These trunks were only visible at the infrequent times that the lake level dropped.

New Zealand events of 1982

- In June Minister of Finance (and Prime Minister) Robert Muldoon announced a simultaneous freeze on wages and prices.
- The first Kōhanga Reo kindergarten opened in Wainuiomata.
- The controversial Clyde High Dam project got the green light after an initial grant of water rights was overturned by the High Court following an appeal by landowners.
- The first Warehouse store opened in Takapuna, Auckland.
- On 18 November 'punk rock' anarchist Neil Roberts blew himself up in an unsuccessful attack on the Whanganui computer centre which housed the government's first centralised electronic database.
- The Māori-language news programme, [Te Karere](#), screened for the first time.

New Zealand events of 1984

- In March the last tolls were collected from drivers on the Auckland harbour bridge.
- In April Susan Devoy won the first of her eight British Open squash titles.
- The Te Māori exhibition opened in New York. A milestone in the Māori cultural renaissance, it enjoyed hugely successful runs in New York, St Louis, San Francisco and Chicago before returning to tour New Zealand to further acclaim.
- On 7 December Dave Dobbyn was arrested for allegedly inciting the 'Queen Street riot' during a free rock concert in Auckland's Aotea Square. He was eventually acquitted.
- The New Zealand men's cricket team defeated England in a test series for the first time by winning the second test at Lancaster Park.
- New Zealand ratified the UN Convention on the Elimination of all Forms of Discrimination Against Women (CEDAW).
- A state of emergency was declared in Southland on 27 January following record rainfall which forced the evacuation of 4000 people and left flood damage totaling \$55 million.
- The Dance Exponents were the big winners at the annual music awards, taking both Album of the Year (*Prayers be Answered*) and the Top Group Award, while lead singer Jordan Luck won Top Male Vocalist. Fellow Christchurch band The Narcs took out Single of the Year with 'You took me heart and soul'.
- Commercial Radio starts playing 'Poi E' by Prime after "shunning it" since 1983.

New Zealand events of 1985

- Prime Minister Lange gave a masterful performance in the widely televised [Oxford Union debate](#), arguing in favour of the proposition that 'nuclear weapons are morally indefensible'.
- Labour MP Fran Wilde introduced a private member's bill, the Homosexual Law Reform Bill, with the aim of decriminalising sexual relations between men aged 16 and over.
- Keri Hulme won the Booker Prize for her first novel, *The Bone People*.
- On 20 November Sir Paul Reeves, previously the Anglican Archbishop of New Zealand, was sworn in as the country's first Māori Governor-General.
- At the Music Awards, Netherworld Dancing Toys won Album of the Year, Single of the Year (['For Today'](#)) and Group of the Year. Andrew Fagan of The Mockers was named Best Male Vocalist and Margaret Urlich Best Female Vocalist.
- [The Quiet Earth](#), New Zealand film's first big screen foray into sci-fi, was released.
- The bombing of the Greenpeace ship [Rainbow Warrior](#) by French Secret Service (DGSE) agents while it was berthed in Waitematā Harbour killed a Portuguese crew member, Fernando Pereira, and seriously harmed relations between New Zealand and France.

Teacher leaves Kimihia after 25 years

By Pamela Bass,
Huntly Press,
December 16, 1986

After 25 years at Kimihia School, teacher Marion Bogie is leaving for a new job at Frankton School.

When she started at Kimihia in 1961 it was a two-teacher school, later to be rebuilt to cope with increased population because of the building of the power station.

Her first day at the new building was memorable—there was a tropical cyclone near New Zealand and the new school ground became a mud-bath.

Mrs Bogie has a keen interest in school libraries. She is going to a newly created job as teacher-librarian, a job which includes organizing school learning resources.

She has always enjoyed books and wanted to be a librarian before training as a teacher.

She says there are a lot more books in schools now than when she started teaching in the 1950's and today's books reflect the social changes that have taken place.

"Now we have a wealth of picture books and lots of exciting illustrations. There are picture books for older children too, and paperbacks mean books are more available."

She says the best thing a parent can do to help their children's education is to read to them. "It's the most important part of their home education."

One challenge in her time at Kimihia has been the open plan classroom.

"I had to learn to work as a team, be flexible and tolerant and be able to organise things. In open plan children learn to be responsible and my aim is to build them up to be responsible for their own learning."

Team work among teachers is a part of the open plan system and she believes the children benefit greatly because the teachers share their strengths.

One of the things that concerns her is violence displayed through television and videos.

"I notice an increasing amount of violence coming through in the things children write and I wonder if it is because they see violence on television and videos."

She thinks there is a lot more demands on teachers now, this starting with the big education changes back in the 60's.

"Teachers are office workers, housekeepers, and have so many demands because of the curriculum. Once when you taught social studies it was all facts - now we talk about problems and try to extend the children's thinking."

"There is a wider range of things to be taught. Regular in-service training is vital so teachers can keep up-to-date. This is one of the big issues now."

Mrs Bogie is sad that her new appointment means leaving Kimihia School. She says she will miss the children and the team she has worked with, including principal Mick Mather.

During her time in Huntly she has been involved in many areas of the community. These include a strong involvement in setting up the Day Care Centre, bridge, golf and toastmasters. She is past president of Huntly Business and Professional Women and has been involved in the Huntly Art and Craft Club.

New Zealand events of 1989

- Sunday trading began in time for the Christmas rush.
- The Reserve Bank of New Zealand Act established the Bank's role in maintaining price stability through monetary policy.
- GST was raised to 12.5% on 1 July.
- In April Swedish tourists Urban Höglin and Heidi Paakkonen disappeared while backpacking in the Coromandel, prompting the largest land-based search undertaken in New Zealand. In December 1990, David Tamihere was convicted of murdering the couple. The discovery of Höglin's body in 1991 contradicted police evidence given at Tamihere's trial.
- **TV3 began broadcasting in November.**
- State-owned Air New Zealand was sold to a consortium headed by Brierley Investments Ltd in October 1989 and later listed on the New Zealand Stock Exchange. A 'Kiwi share' kept decision-making in New Zealand hands.
- The first ***Holmes Show*** screened.
- The "Tomorrow's Schools" programme became the basis for reforming primary and secondary education in New Zealand.

SUBSIDENCE CONCERNS

Concern expressed by Kimihia School principal Mick Mather at apparent subsidence of the school buildings at the end of 1988 prompted correspondence between architects and engineers. Two of these letters clearly explain the situation.

17 January 1989

**ATTENTION: J W
KELLAWAY REPORT ON
KIMIHIA SCHOOL
GROUND SUBSIDENCE**

The entire building area with the exception of dental clinic, swimming pool and dressing sheds is showing evidence of a general subsidence. Almost without exception, there is visible evidence around base of buildings of an even subsidence of approximately 12 mm.

The interesting fact is that the ground has subsided so evenly throughout the entire length of all the permanent classrooms and admin block.

On the rear, side and front wall of rear c/ room block there is evidence of many cracks that have been filled in with a thin mortar paint. However, there are still portions of this 1.3 high block foundation wall that shows newer cracks that run vertically from ground to floor level at centres as close as 200 mm apart.

I visited four private residence across the road from school plus one at rear of school site and found virtually no signs of any subsidence occurring.

The residential area 1/10th of a kilometre to west of school on other side of Russell Road is generally known to be riddled below with mine shafts.

There is a coal mine approx. .75 of a kilometre NE of school building site.

All classrooms and administration block are constructed with permanent materials, eg continuous concrete or block foundations, and concrete floors. Note: all brick veneer walls above floor level are not affected by cracks.

All classrooms and admin are within the subsidence area.

The principal of school, Mr Robert Mather, told me that in his ten years of teaching at Kimihia School that he has only noticed evidence of foundations cracking and subsidence occurring during the past two years. During that time he showed me where the concrete paving had dropped 20 mm.

The area he is referring to is in front of the 2 c/room block on east side of site.

I believe that the ground at the rear of this block has subsided considerably more than this. Refer to photos 45, 46 also see photos 47 and 48 at rear of 4/class room west block. Mr Mather also said that he knew of a mine shaft that runs north-south across the main play field adjacent to the swimming pool. He did not know of any

information of other shafts below school buildings.

Enclosed is a plan of school showing relationships of photographs to buildings.

R J PULLINGER 2/2/89

**Mr Kellaway,
KIMIHIA SCHOOL GROUND
SUBSIDENCE Refer to Mr Pullenger's
report of 17/1/89**

So far, the degree of subsidence shown on the photos does not appear to be cause for too much concern. If it becomes worse I recommend that a consulting engineer specialising in soils and foundations should be called in, as the origin of the subsidence is not clear cut.

For the record, earthworks were carried out 23 years ago. The building platform was constructed 146 ft long, of which the western section of about 30 ft comprised a wedge shape cut with a maximum depth of 1½ ft and the eastern section of about 116 ft comprised a wedge shaped fill with a maximum depth of 5½ ft. There is no record of any unusual problems with compaction or underground water in the building area during construction. Subsoil drainage had to be provided later to drain wet areas in the playfields. The soil is heavy clay.

1. Insufficient compaction of filling during construction is not the reason for the subsidence because (a) subsidence has occurred as much over the cut area as the fill area (b) the dental clinic area has not subsided at all, although it is on the area of deepest fill (c) the principal states settlement on the area of greatest fill has occurred only in the last 2 years - settlement of poorly compacted soil is greatest immediately after completion of earthworks, reducing with the passage of time and normally becoming negligible within about 10 years (d) although the northern block was not constructed until 9 years after the other buildings, the degree of subsidence is similar there to the rest of the building area.

2. Shortcomings in building construction seem unlikely to be the basic cause because of the widespread and relatively equal nature of the subsidence, even at the block which was constructed later. (This block was constructed by the same builder who built the first buildings and was not known as one of our best builders.)

3. Slumping due to underground mining operations is a possibility but does not seem likely given the widespread and generally even nature of the subsidence and the lack of subsidence on neighbouring properties and also at the

swimming pool. The latter is particularly significant if it is indeed close above a mine shaft as stated by the principal. However, Coalcorp should be invited to comment and asked to supply plans of underground workings in relation to the school site.

4. With our present limited information, my guess is that the underlying clays have shrunk as they dried out during the three dry years experienced in the Waikato area prior to 1988. During this period the water table shrank considerably over the whole district, many people having to deepen bores which had never given trouble before. The heavy wet clay in this area would shrink considerably if dried.

A 1990 aerial view of Kimihia farmland.

The cleared area to the lower right is the result of clay having been removed for use by the brick works in Huntly. A part of this area was the site of the original Kimihia school. The current school site is arrowed top right.

Kimihia welcomes new Principal

Hunly Press - 19-6-91

Kimihia Primary School has a new principal who took up his position at the beginning of this term. He is John Robinson and he is married with three children.

He is a staunch advocate of the New Zealand education standards which he says "rated very highly" by people familiar with the education systems and education researchers, who are qualified to judge from their experience of education in many countries.

This contrasts strongly with the message being put across by such groups as the Business Roundtable he says, who tend to see education in terms of fodder for their employee needs.

"New Zealand redaing standards are recognized as being among the highest in the world" he adds.

He comes to Hunly from Kaurilands Primary School, Titirangi in West Auckland where he was deputy principal for three and a half years. The school had about 500 puypils.

During his time there he and his family also enjoyed a year's exchange in a Yorkshire primary school at Grimethorp.

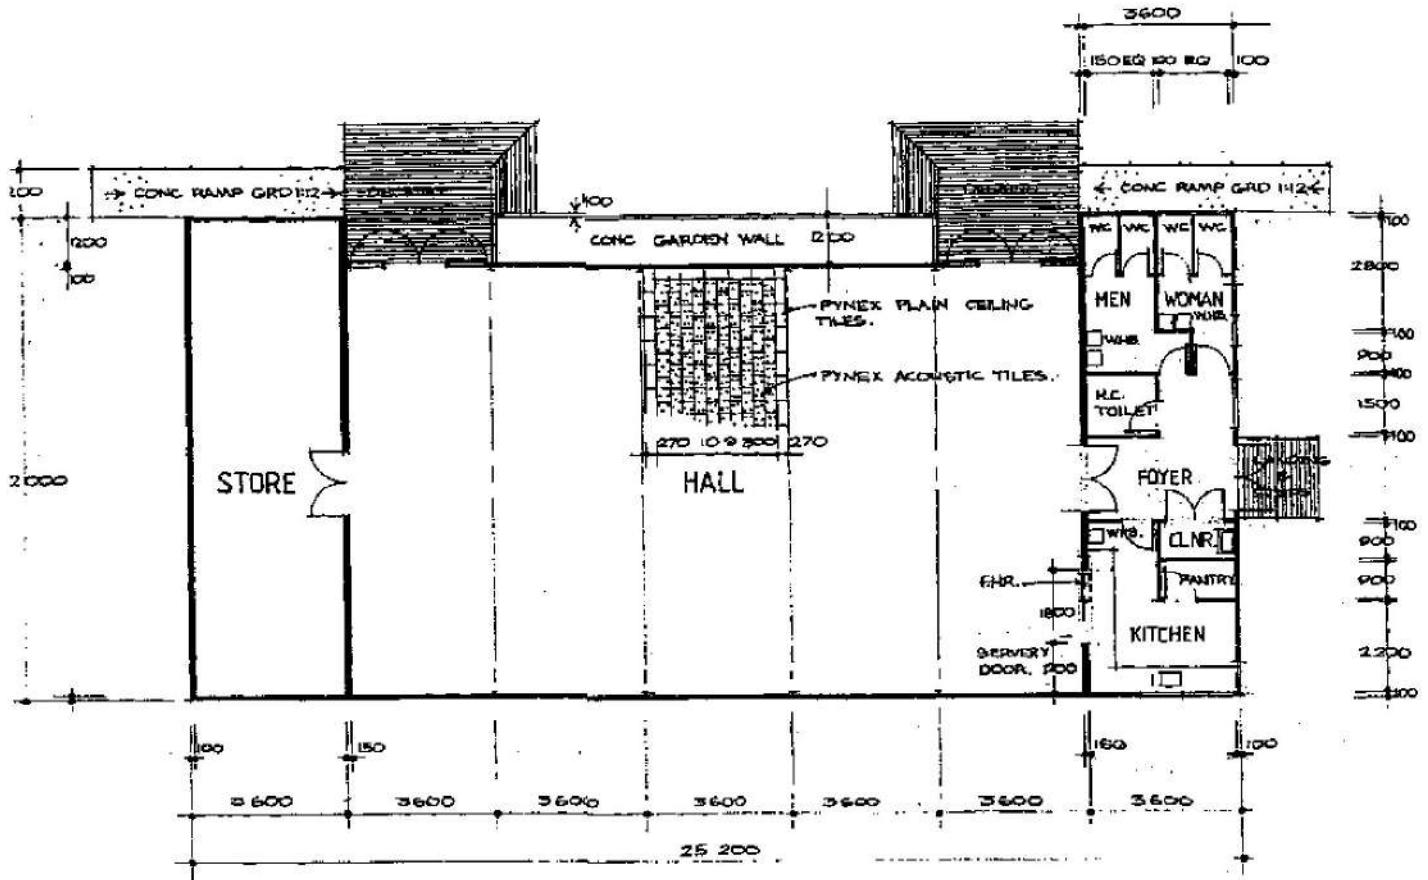

Most of his teaching career of 15 years has been spent in Auckland except for two short stints in Christchurch and New Plymouth.

He has been impressed by the "commitment and professionalism" of staff at Kimihia since arriving there three weeks ago and expects to build on this good base.

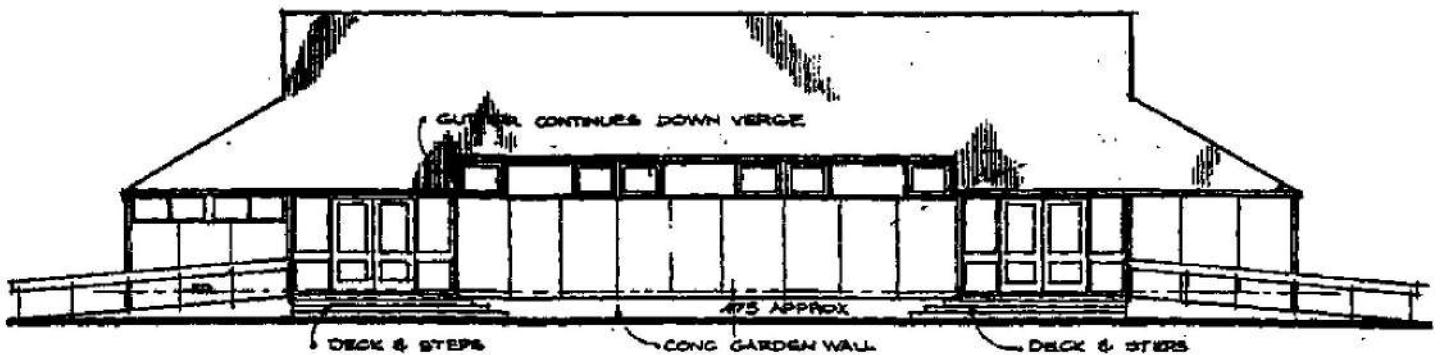

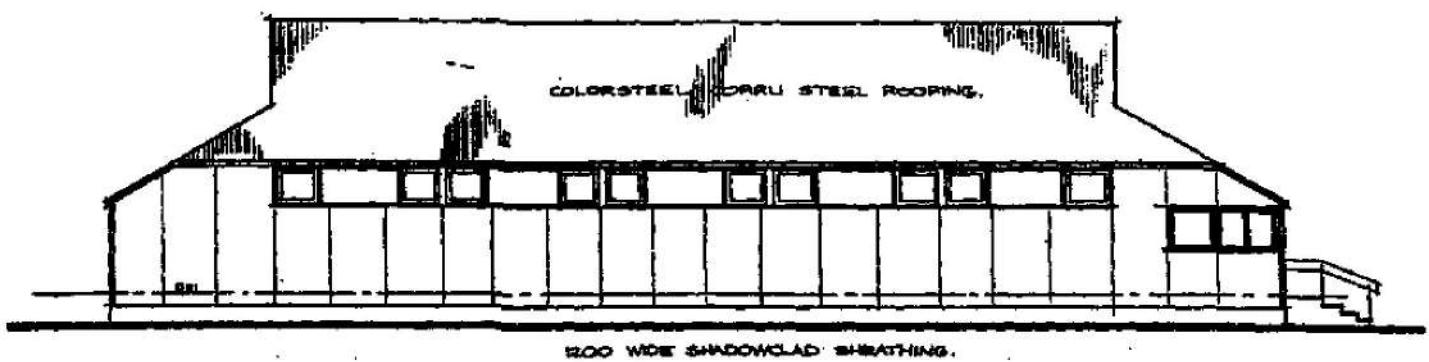

"I believe you have to set high standards for the students and that means setting them for yourself."

Administration tends to be an ever-increasing burden for principals, especially since Tomorrows Schools, but Mr Robinson wants to keep it in its rightful place as subordinate to human needs.

He is presently in the second year of a masters degree in education administration at Massey University which eats up a lot of his leisure, leaving little time for sport which he normally enjoys, though he still manages some "light jogging" to keep fit.

School Hall.

Waikato Times 20-11-92

'Flash' school hall opened

When Len Rosser went to Kimihia Primary School there was one room for the school's 30 pupils.

He thinks it's "just great" the school, near Huntly, celebrated the completion of its community hall today.

Mr Rosser was born in Huntly in 1912 and moved out to Kimihia as a five-year-old in 1917.

He's been there the rest of his 80 years, raised one child, is the proud grandfather of two and the great-grandfather of two more.

Mr Rosser said the new hall was a great tribute to the community who fundraised, dug the foundations and helped with the hall's construction.

"I'm a bit old for most of the work but I helped out with the raffles and that sort of thing."

The hall included a modern kitchen, toilets and storage room and the basement will house the caretaker and double as the school resource room.

School principal John Robinson said the hall would fill many of the school's needs.

"Now we have a place for assemblies, cultural group performances, plays."

Mr Rosser said what few functions were held in his day were all held in the school's solitary classroom. "So it's just great we've got this flash thing to hold them in now."

Kimihia used to have a beautiful lake, and no hall. Then for a long time it had neither. Now, after six long years of fund-raising, it has a hall.

The primary school, first established in the Kimihia community 120 (sic) years ago, has always been "the centre of district affairs from kitchen evenings to political meetings as there is no

hall" comments the 1957 jubilee booklet.

Principal John Robinson wants the hall to be a focal point for the community because it is a "community hall", he emphasizes.

The hall project began with the establishment of a committee in June 1986. Whilst being singularly unlucky when it came to attracting large scale funding from major sources, the community has stuck to the project tenaciously with fundraising and at the eleventh hour has finally got a grant from the Ministry of Education.

Over the years the Kimihia Fun Run became an established and popular item on the local calendar of events.

Other memorable occasions were performances by show-biz personalities and ex Kimihia residents the Topp Twins, a monster Steptoe Auction, a Silver fern Railcar trip to Waiouru Army Museum and regular raffles.

The community raised \$70,000 and received grants from the Lotteries and Hillary Commission.

After dragging its feet the Ministry has finally agreed at the fourth request and after initially offering a two to one dollar subsidy, to contribute a very welcome \$80,000. Architects and project managers were 5+1 Architects Ltd and builders Jennian Developments Ltd.

On Thursday March 19th there was a ceremonial blessing of the site, known as a Poutokomanawa, which involves laying the foundation peg at the main door entry.

Seven months later, on October 7, the newly completed hall was blessed in a Māori ceremony and began to be used.

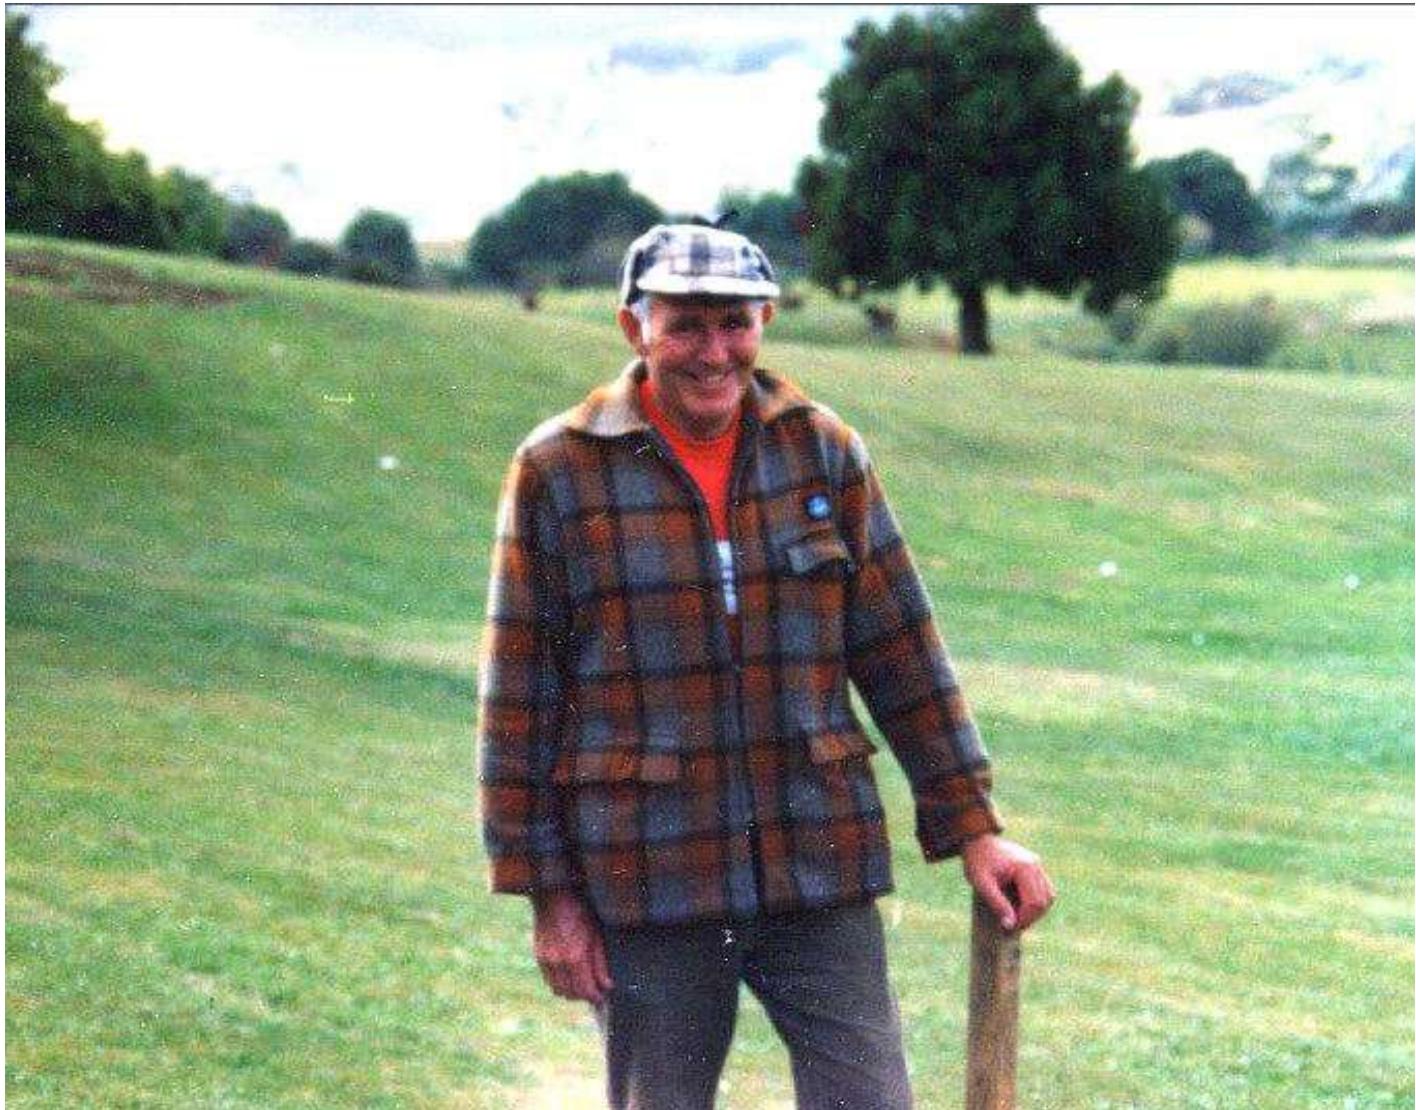

Now the finishing touches have been made, shrubs and trees planted around the attractive building and a celebration is planned for Friday November 20 with afternoon tea, a barbecue and evening social.

New Zealand events of 1993

- By-election in Tauranga after the National MP Winston Peters resigned from both his party and from Parliament. He re-contested the seat as an independent and won it after no major political party stood a candidate.
- Disappearance from Karangahape Road in Auckland of 17-year-old Jayne Furlong.
- A concrete mixer truck fails to stop at a railway level crossing in Rolleston and hits the side of a southbound Southerner passenger train, killing three people on board and seriously injuring seven others.
- The 1993 general election is held, with National losing its large majority to retain power by one seat.
- The 1993 voting method referendum is held, with a 53.9% majority voting to change to the Mixed Member Proportional (MMP) voting system.
- Auckland mid-air collision of police Eagle helicopter and a traffic spotting Piper Archer over the Auckland CBD, killing all occupants of both aircraft – two police and two civilians; debris falls on motorway.

New Zealand event of 1994

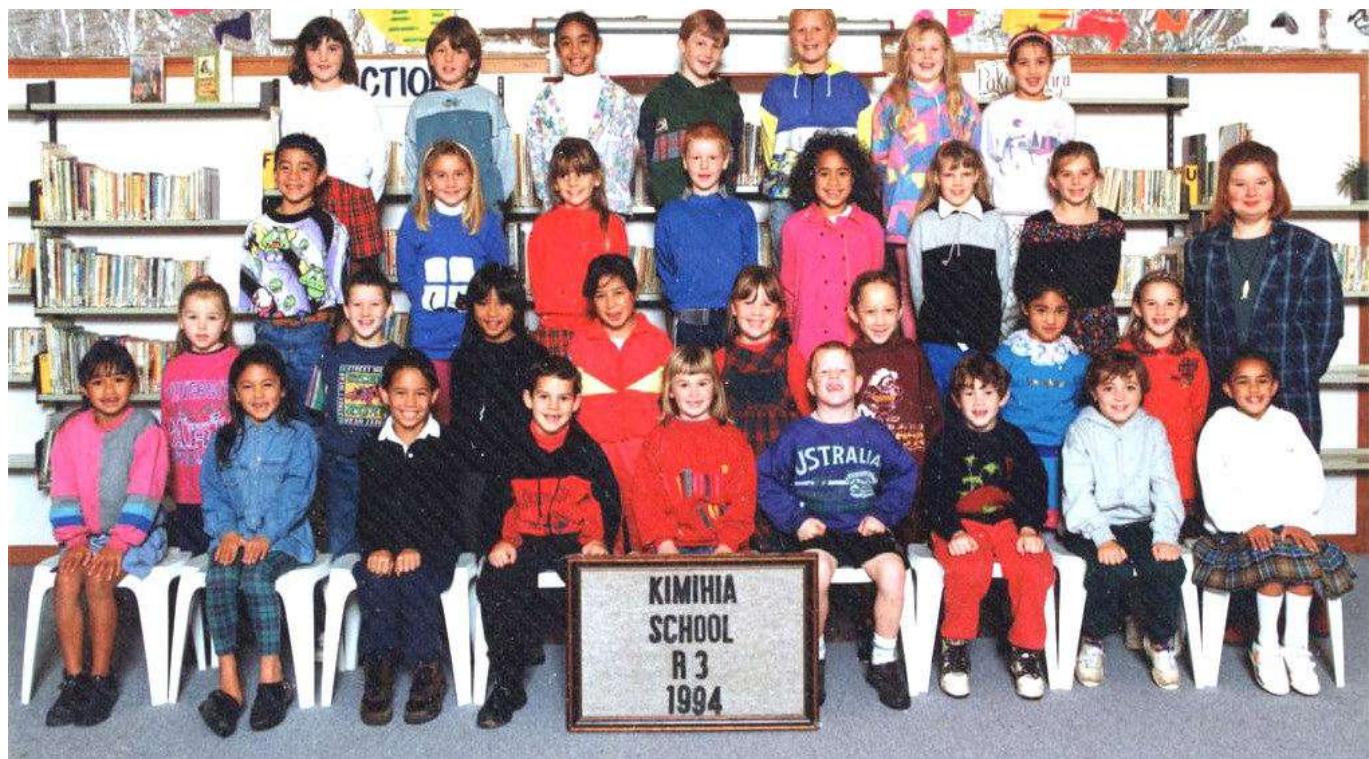

The Big Day Out, an Australian franchise based on the successful Lollapalooza model, brought alternative, hard rock, hip hop and, more recently, dance acts together in a one-day festival in Auckland.

Around 8000 punters turned up to the first 'BDO' at Auckland's Mt Smart Stadium to watch headliners Soundgarden, Smashing Pumpkins, and The Breeders, who arrived to play on a massive pageant float. Sharing the stage with these international acts were local favourites, including Shihad and Straitjacket Fits.

Building on a Reputation

When Peter Aim takes up his position as Principal of Kimihia School today, he says he is determined to build on the good reputation and high standards that the school already has.

A crowd of well-wishers and supporters turned out on both sides at a powhiri held for Mr Aim recently.

Mr Aim is currently employed by Sport Waikato as district sports co-ordinator where he has been for the past 18 months. Prior to that he was the deputy

principal at Te Kuiti Primary School.

Moving back into education is a positive move for Mr Aim. "I am looking forward to the challenges," he says.

Mr Aim will be moving from his home in Te Kuiti to live in Huntly. He will be accompanied by his wife Robyn and children Rebecca, Jonathon and Christopher.

This Melville Primary School Library building was once the original Kimihia Primary School room. Before (and since) this photo was taken in 1996 the building has been further enhanced and bears no resemblance to its original structure. In 1967 the Ministry of Education ignored pleas by the Kimihia School Committee (and the Huntly Jaycees) to have it moved to their new school location in Tamihana Avenue.

Reply to Past Teacher Questionnaire.

1. From mid 1953 to 1959 5½ years.
2. For the first 2 yrs or so we rented a cottage on Johnston's Farm, 2 km from the school. For this time I walked to the school except for wet days when I drove my car. When the school house was built opposite the school, I walked across the road.
3. Main changes: The actual teaching is still much the same as it was forty years ago although today's teachers probably know more about how children learn and can help their pupils more. Today there are more outside agencies that teachers can get help and advice from, whereas the country school teacher of forty years ago was very much on his/her own.

Resources are better today than they were. In the 1950s Kimihia school had no library of its own, we had a film strip projector only, and got our first tape recorder after the 60th

Jubilee, bought with the left-over funds.
Today teachers also have more freedom in choosing what they can teach and can design programmes for individual pupils as needed. I started to do this at Kimihia school but such an approach was very new in those days and the school Inspectors had to give their approval, something that they were very slow to do.

4. I taught all subjects at all levels of the school from new entrants to F.II. "How often" was dictated by the Department of Education and the timetable was worked out to their requirements. For example:-

Mathematics }

Language } all had to be taught

Spelling } every day for a certain number
Writing } of hours per week.

Physical Education - 2 hours per week

Art + Craft - 2 hours per week

Social Studies - 3 hours per week

Music - 1 hour per week

and so on.

5 $5\frac{1}{2}$ years. - see Question 1

6. I expected good behaviour from the children and most of the time they behaved well. Discipline came from working together and caring for each other and ~~for~~ for our school. Talking to parents helped to solve many discipline problems.

Where children were punished, I used the three usual methods in those days, writing lines, detention, or in the worst cases corporal punishment with a strap, on the hands. When the strap was used, the teacher had to record this in the "Punishment Book." Possibly this book is still in existence in the school records.

7. For about half my time at Kimihia I was the sole teacher and taught all levels from N. E to Form II in one room. From memory the roll when I started was 28 pupils and it then rose to 40. With this number of pupils at all levels it was necessary to organise the timetable very carefully so that teaching time could be shared out to all classes. This meant

that the S₃ - F_{II} pupils had to learn to work independently for much of the day and the senior pupils (F_I+F_{II}) were used to monitor work with the infant classes. In many ways this was of great benefit to the children as it promoted good work habits in the middle and senior classes and made a very caring atmosphere through the school.

When the roll reached 40, we were given a second classroom and a second teacher.

However the classroom (a prefab) was at Te Kauwhata and because of severe flooding could not be shifted for 3 months. Also, at that time there were no second teachers available, and 40 pupils could not be accommodated in the single room.

Our new school house had just been finished and so for three months we used the school house lounge as a temporary junior classroom where my wife, Mrs Margaret Hawless, taught as an uncertificated teacher.

The new classroom arrived but we still had no teacher, so Miss Mary Torkington who had just finished at Huntly College became the first ex Kaimihia pupil to be employed as an

uncertificated teacher at her old school.

Mary was followed by a relieving teacher Mr. Neil Watene and then Mrs. Wilson was appointed as a permanent second teacher.

With the second teacher I was then able to take S3 - FII in the main school.

8. We had a points system for good work and good behaviour. Rewards were usually free time to use on the pupils' own interests, sometimes a small bar of chocolate, and certificates to be sent home to parents.

9. Most work was done in exercise books, one for each subject. Loose-leaf folders were not in use at that time. For note-taking and draft copy work books of jotter paper were made up of newsprint art paper. Art supplies were very short at those years and schools used to go to places like the Waikato Times to get end-rolls from the newspaper printing and cut this paper to size.

Senior classes used pen and ink, with the ink in inkwells at their desks, or fountain pens if parents could afford them. Ball point pens

were then coming into use but were not allowed for school work in primary schools as it was believed that they would spoil the children's handwriting.

10. Children had all the usual duties of a classroom but some extra ones that are not seen today. We did not have a school cleaner but the Education Board paid the school a cleaning allowance and the senior pupils did the work. At the end of each day then the seniors had to sweep the classroom, dust and tidy, clean the windows once a week, in winter clean out the stove and get kindling and coal for the next day, burn the rubbish etc etc. School gardens were kept by the children.

For the first few years while I was there the school did not have flush toilets. Instead each toilet had a large can which was emptied each Saturday. Friday afternoon duty for the senior boys was to dig a deep hole in waste ground outside the boundary fence and then on Saturday, the teacher or one of the male members of the school committee would empty the toilet cans and bury the week's waste. At Kimshia school, for

this sort of job, or for lawnmowing, or any other maintenance around the school, the teacher was expected to take regular turns with the school committee members. At the end of each term, the wooden floors of the classrooms had to be washed and then thoroughly oiled with special floor oil. This was also the teacher's job on the first week-end of each holiday!

11. I tried very hard not to have a teacher's pet and to treat all pupils equally. Having said that, I must admit that from time to time in all schools there are certain children whose nature is such that everybody including their teacher feels good just having them around, and probably they get treated a bit specially. The new-entrant - Ji pupils were, I suppose, the pets of the whole school. It was always delightful to see a large, tough 13yr old boy walking around the play ground with a couple of 5yr olds hanging off his arms, having a great time playing together.

13 Manual training was not taught at the school, but at Huntly Primary, only in the last two years of my time. The boys had Woodwork, the girls had cooking on a once a week basis.

If there are any other matters that I could help with please do not hesitate to contact me.

Yours sincerely

CONFSSION:

We had a dream about reunion,

O God.

It looked like many lights
from the stream of people
generation after generation,
adding to each other' s light,
warming each other' s life
setting each other free.

Across the boundaries
of all our differences,
creating in between
the brave and gracious light
of human community.

Silent reflection:

We are remembering
where dreams, have become reality

Silent reflection:

Precious little memories
of little things well done,
Make every darkest day
a bright and happy one.

Tender little memories
of some word or deed
Give us strength and courage
When we are in need.

People: Thank you, Lord Jesus, for our precious memories of the past and thank you for the promise of what is yet to come. AMEN.

ASSURANCE OF PARDON

Leader: Hear the word of grace in Jesus Christ:
the love of God for us never fails.
Nothing can separate us from that love.
A new dream is always ours.
Rise up and live in freedom and faith.
Amen.

People: Amen.

As our Lord taught us, we pray

Our Father in Heaven
hallowed be your name
your kingdom come
your will be done
on earth as in Heaven.

Give us today our daily bread
Forgive us our sins
as we forgive those who sin against us
Save us from the time of trial
and deliver us from evil.
For the kingdom,
the power, and the glory are yours
now and for ever. AMEN.

"Learning" by Joy Cowley

Spirit of Love, you are strong and true,
a constant wind to my sail
Your power will never fail me.
But the direction I take depends
on the way I set my sail,
and that skill can only come
from practical experience of journey.

Yes, I've studied manuals, examined charts,

Listened to the advice of others
but in the end it's a matter
of getting out there and doing it.
And I can be sure that just as I think
I've got everything under control,
I tack the wrong way and capsize,
That's how it is with learning.

Spirit of Love, strong and unchanging,
you teach me that the trough of the wave
is as important as its crest.
Thank you for giving me the freedom
to learn through trial and error
and thank you for showing me
that if I don't make mistakes
I don't make anything at all.

PRAYERS FOR INTERCESSION

Leader: In our homes, we are whanau,
In Kimihia School, we are whanau,
in the community, we are whanau,
in the whole creation, we are whanau.
In every place, we depend on you, O God
In faith we pray for the moments
in our life when we need you help.

Silent reflection:

All these prayers
and the silent prayers within our hearts,
we offer to you, O God of grace.
Show us the liberating love
which you give to us
that we may free each other for life
and trustingly place in your hands
those who leave us in death.
O Lord, hear our prayer.

People: O Lord, hear our prayer,
when we call answer us.
O Lord, hear our prayer,
Come and listen to us.

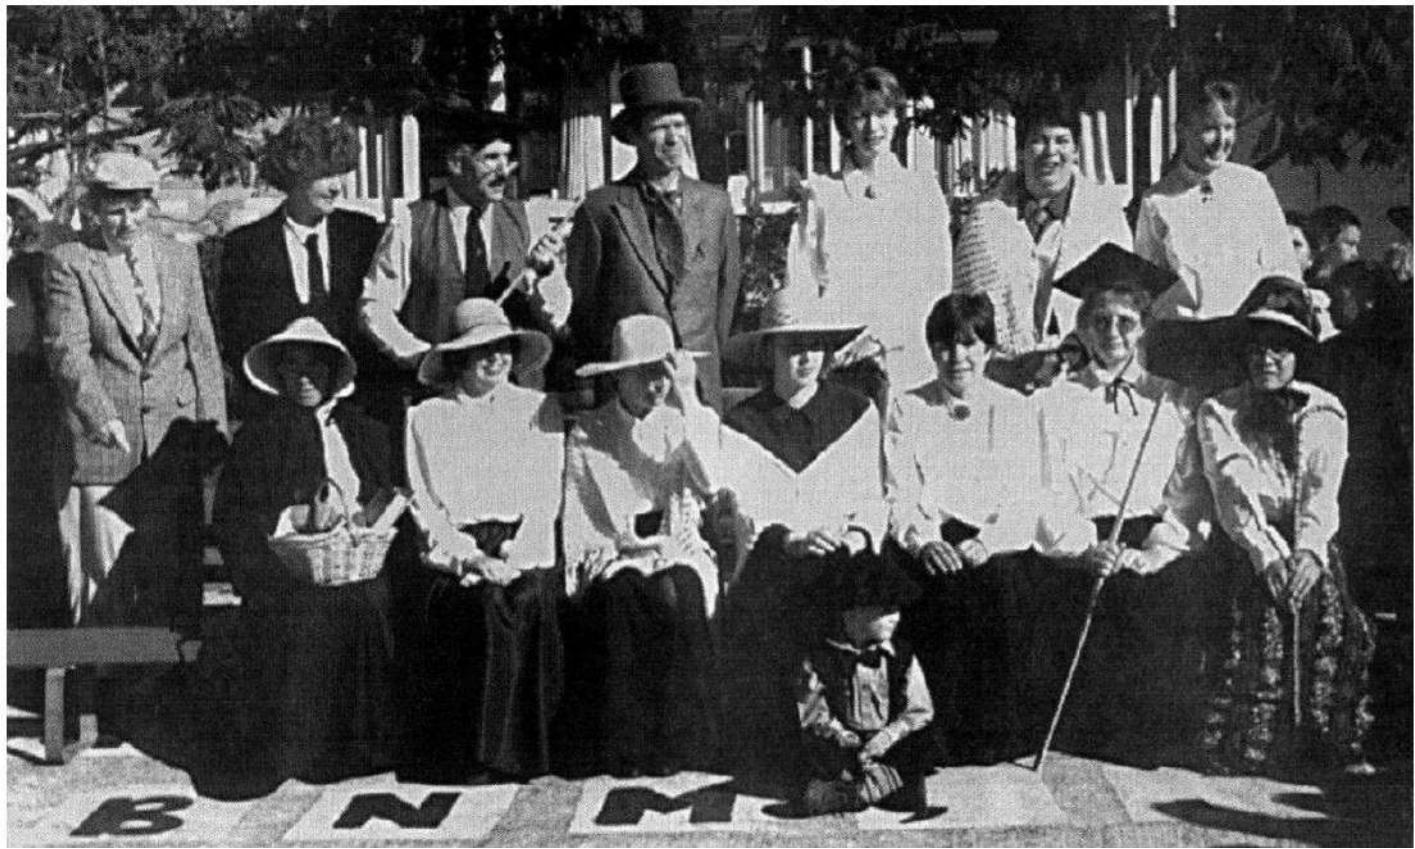

BLESSING:

Go into the world in peace
Be of good courage
Hold fast to that is good;
render to no-one evil for evil;
Strength the faint-hearted;
revisit the memories;
and go now, rejoicing with your
renewed friendships to Love and serve
to Lord.

People: Amen. We go in the name of Christ.

Residents of Kimihia petition for school

Before the turn of the century it became apparent that a local school was necessary to cater for the increased juvenile population, the result of closer settlement.

A petition was presented by some of the local settlers to the Auckland Education Board.

At the time children who were old enough to stand the rigours of the daily return journey had to tramp over the old swamp road to Huntly school.

In due course the Education Board agreed to pro-

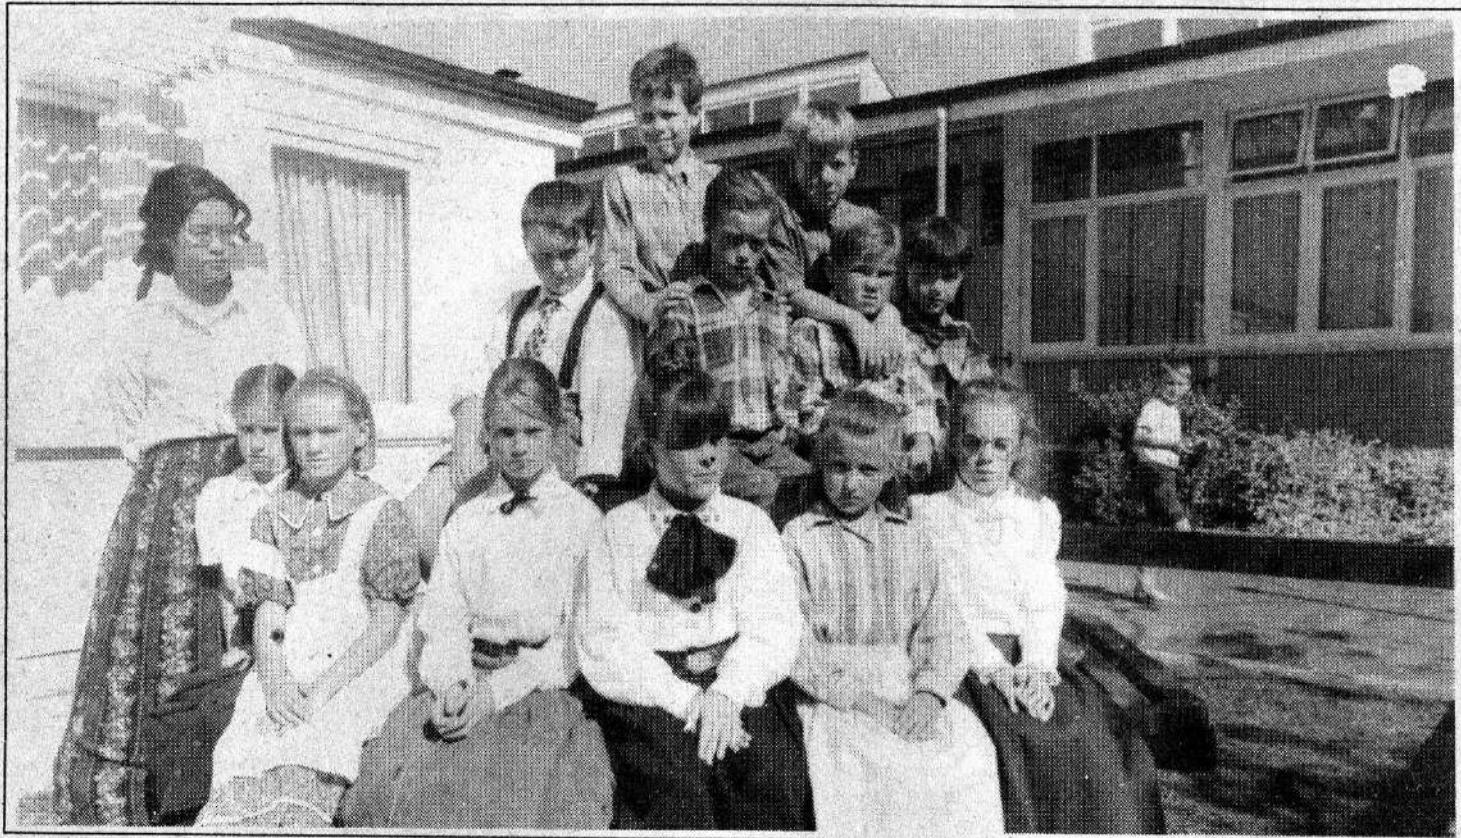

vide a school and a site was selected on part of a university endowment.

The school was built and opened in 1897, and the first teacher Mr Maurice Priestley instated in August.

To get to the school he daily walked from Huntly to Lake Hakanoa, rowed across the lake in a Maori canoe and then walked on to the school from Patterson's farm.

Kimihia centenary: a day to remember

The Easter weather was perfect for the Kimihia centenary celebrations. Close to 250 people registered, and around 400 attended the speeches and children's performances on Saturday.

Principal Peter Aim reports the successful weekend went without a hitch.

To mark the centenary a dogwood tree was planted outside the new classroom, and two plaques were unveiled in the school hall. One was to

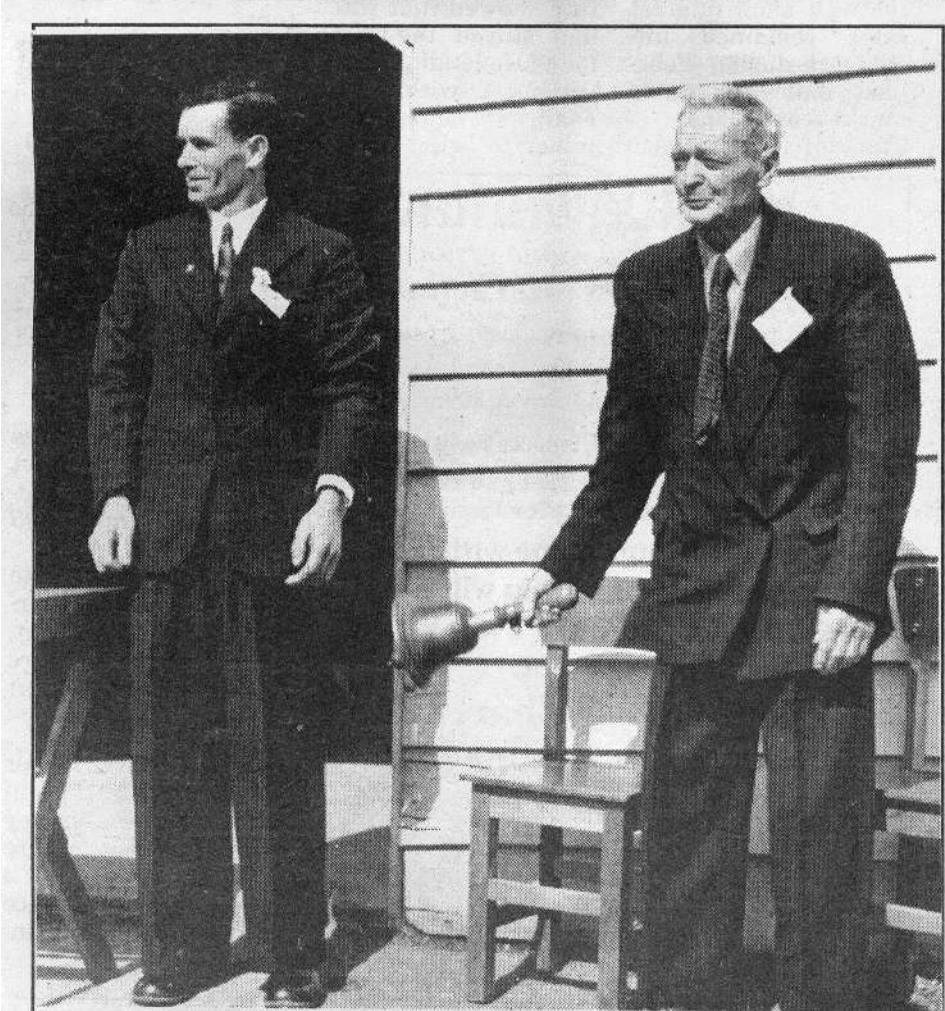

commemorate the centenary, and the other to honour the efforts of Tom Johnson in building the hall.

On the Thursday before Easter, the present day Kimihia school children and their teachers dressed in costume as was worn by pupils and teachers one hundred years ago. Principal Aim carried around a cane for the day, and classes and school discipline was as it was when grandma was a girl.

Number one teacher: Priestly recollections

When Kimihia School held its diamond jubilee in 1957 first teacher of the school Mr Maurice Priestly was there to take the roll call of first-day pupils. It must have been a rarity for a

school to have its first teacher return after 60 years.

Writing his first impressions of coming to the school he said ...

"It was, I think, on August 24 1897 that I

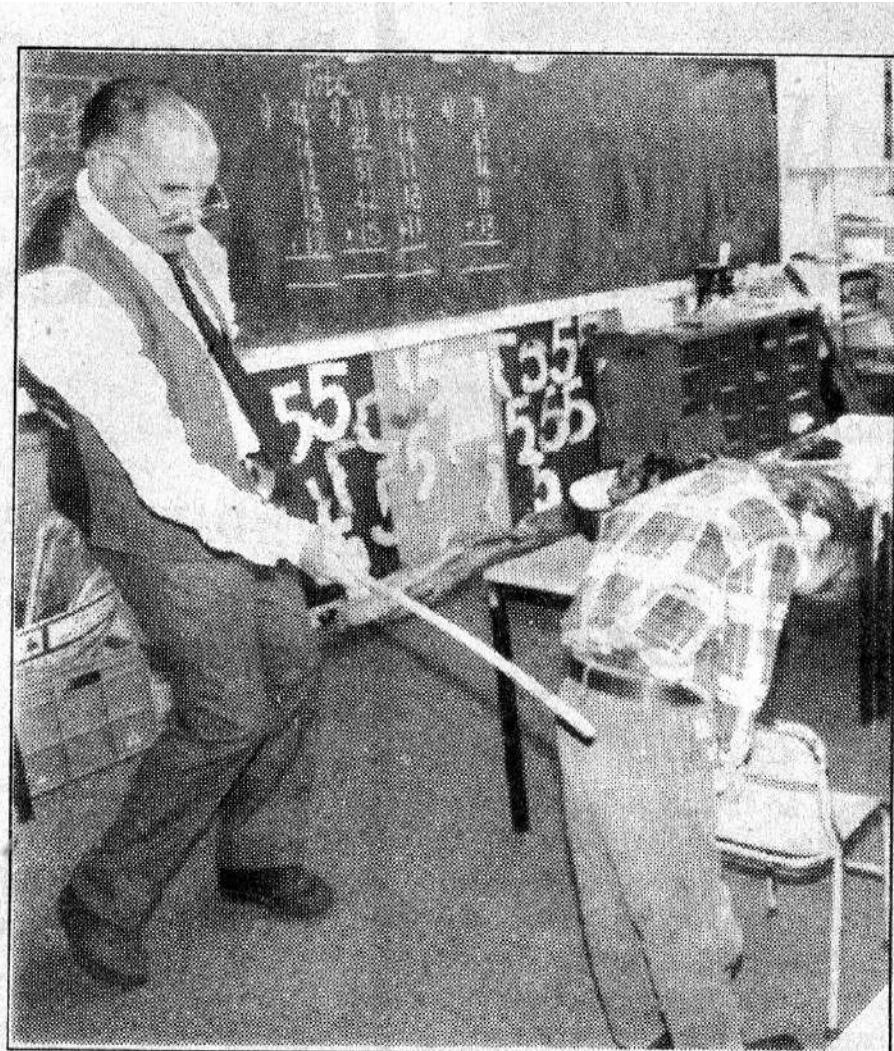

wended my way over the tea-tree covered track to open a new school at Kimihia. Leaving Te Aroha where I taught previously, I had time during the rail journey

to visualise my new charge, and anticipate a school full of Maori children.

"The building had just been completed, and cost - believe it or not - 198 pounds. Fifty years later when I visited it there was little sign of decay.

"I was delighted on arrival to find some 16-20 bright little faces - none of them Maori - all eagerly appraising the new teacher. Some looked pleased, some doubtful. I can visualise all the faces, but cannot remember all the names. Some that occur to me are the Troughers (4), all reliable; Evans (4), faithful honest workers; Dunns (6), all brainy and trustworthy; Johnsons (2), bright and vivacious; Russells (2), quiet retiring and sound; Holland Tom, bubbling over with life; Maggie Wilson, a God-send to any school; Taylors (4), bright, alert and dependable; Pearl Paterson, always to be depended upon; McGlynn (2), cheerful and industrious; Sop-pets (2), loveable children and clever, and others which the years have dimmed.

"To my old pupils I can only say that sixty years of experience has taught that unless a teacher can arouse love in his pupils he will get nowhere."

THE CANE CLAP: every time the cane went down which was wielded by principal Peter Aim, the class clapped.

Kimihia School celebrates 100 years - 1897-1997

Milestones

Up until the closure at the end of 1966 the original Kimihia school had been used for the past 70 years as the centre of district affairs from kitchen evenings to political meetings, as the area had no hall.

In 1966 a new Kimihia school was started off Russell Rd in Tamihana Ave.

In Huntly brick veneer and the rest finished in timber, six teachers were to start with a school with a capacity for 230 children.

The old school (now three-teacher) closed at the end of 1966 and 90 children were relocated to the new school closer into Huntly with principal Mich Mather easing the transition by handing over the new principal John Lloyd for the 1967 year.

The historic Kimihia school was moved to Melville primary school as their library against the wishes of the Kimihia community who wanted it to be retained as a historical building.

At Melville over a period of time the building was re-blocked, re-clad and re-roofed to a point where all that remained of the original structure was the internal timber and the building is no longer recognisable as the old school.

In 1992 after six long years of fund-raising the hall was built at Kimihia school.

Fundraising included the Kimihia Fun Run, performances by showbiz personalities and ex Kimihia residents the Topp Twins, a monster Steptoe Auction, a Silver Fern railcar trip to Waiouru Army Museum and regular raffles.

The community raised \$70,000 and received grants from the Lotteries and Hillary Commission. At the eleventh hour a grant came through from the Ministry of Education for \$80,000 and the hall was opened on Friday November 20, 1992.

PAST TEACHERS at the 50th reunion, 1947: (back left) Miss Davy, Mrs McIntosh; (front left) Maurice Priestly, Miss Brown, Mr M O'Brien

Snippets

Bert Clinch, later to become the All New Zealand .303 Shooting Champion, shot the knob off the school gable at 500 yards. He was champion in Live Bird, shotgun and rifle. He could toss up a penny and shoot with a peashooter. He served in the Boer War and in the 1914-18 World War.

Bill Valentine Snr kept a Holstein bull pegged down by the nose in the paddock that the children crossed. Mrs McIntosh was well remembered for her fear of bulls. One day the bull got loose and jumped the fence right by the children, so young Dick Yates jumped in front of the bull to stop it. Mrs McIntosh reached out with her umbrella and hooked him out of the path of the charging bull.

Mrs Rogers recalls her older brother Tom Holland.

"He wasn't even five when he started school. It was such a long way to walk to school that sometimes he didn't get there until lunch time.

★ ★ ★

During these early times one of the Waugh brothers, who had incurred the ire of the teacher, was sent outside to get a stick and he returned with one three inches long. Sent for a bigger one he came back with one ten inches long. He was then sent for the biggest one he could find and was gone for an hour. His return was heralded by a bump, bump, bump up the path and through the porch. He arrived with a strainer post.

Job well done!
